EDUCATION

Damietta University

Sep. 2023 – Expected 2027

B.S. in Computer Science Damietta, Egypt

EXPERIENCE

FlyRank AI

Aug. 2026 – Present

Machine Learning Engineer Intern Remote

- Completing hands-on tasks and a capstone project as part of a self-paced Machine Learning Engineer internship program.

PROJECTS

Pathway — Online Learning Platform

Aug. 2026

ASP.NET Core, SQL Server, Entity Framework, Bootstrap

A full-stack online learning platform built with ASP.NET Core MVC, connecting students, instructors, and admins in one role-based system. Instructors create and structure courses, students browse and enroll, and admins oversee the entire platform through a statistics dashboard.

Fuzzy-CapsNet — Brain Tumor Classification

May. 2026

PyTorch, CapsNet, Medical Imaging, Gradio

A Hybrid Fuzzy Capsule Network for classifying brain MRI scans into 4 categories (Glioma, Meningioma, No Tumor, Pituitary). Replaces classic CapsNet's hard dynamic routing with Gaussian Fuzzy Membership routing for smoother gradients and better interpretability — achieving 91.69% test accuracy and 98.42% ROC-AUC.

ECC — Elliptic Curve Cryptography Simulator

Oct. 2025 – Dec. 2025

Python, Flask, Three.js, Cryptography

An interactive web app that visualizes and simulates Elliptic Curve Cryptography end-to-end — from key generation to encryption and decryption — powered by a real secp256k1 implementation in Python and a live 3D visualization engine built with Three.js.

CERTIFICATES

Computer Vision — Summer Training

Sep. 2026

 *National Telecommunication Institute (NTI)*

Web Development using .NET — Summer Training

Aug. 2026

 *Information Technology Institute (ITI)*

SKILLS

Languages Python, C#, JavaScript, HTML/CSS

Machine Learning PyTorch, TensorFlow, Keras, scikit-learn, OpenCV

Data & Scientific Computing NumPy, Pandas, SciPy, Matplotlib, Plotly

Web Development ASP.NET Core, Entity Framework Core, Flask, FastAPI, Gradio

Databases Microsoft SQL Server · MySQL · SQLite

Tools & Design Git, GitHub, Figma, Canva
